Dear The Federal Communications Commission,

The flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I am opposed to the flat-fee tax.

I urge you to keep the USF fair, and adopt the Fair Share Plan.
Thank you, and best of luck in your new position.
